

The Redbud Coffers System offers a variety of molding profiles and face veneers. Special finishes can be provided to meet unique design requirements.

KEY FEATURES

- Cost effective and functional system.
- Multiple veneer options available.
- Trim for floating ceiling applications are available.
- Factory cut-outs for can lights and other applications available.
- Panels are accessible.

The Redbud Coffers system is ideal for environments seeking a contemporary take on the classic coffered design. It employs picture frame assembly to create and miter veneered molding, which is then affixed to a veneered panel. A 3/16" reveal must be maintained between the panels, and access is facilitated through a lift, shift, and removal process.

The coffer lays into 15/16" standard T-Bar grid below the grid. Multiple veneer pattern options are available for the coffer interior panel.

Parimeter Conditions and Suspension

3-3/16" Depth

Acoustical Performance

Due to the nature of the design - the RB Coffer System naturally diffuses soundwaves.

Sustainability

The RB Coffer system is manufactured responsibly using sustainable raw materials.

Storage and Acclimatization

All materials must be stored and installed only in a controlled interior environment (relative humidity range 25% - 55% maximum - temperature between 60° - 80° - not to exceed 86°). All windows, doors and wet work must be complete before installation. Material should only be installed after reaching equilibrium moisture content.

Compliance with seismic codes

The RB Coffer system, when installed onto a seismic code compliant suspension grid with screw attachment through the wood backer to the grid will satisfy seismic code requirements. Consult with local codes or a licensed engineer for any additional requirements.

Fire Rating

The RB Coffer system can be manufactured to achieve ASTM E-84 Class A rating compliance.

Warranty

All materials produced by Redbud Architectural Systems are guaranteed against manufacturing defects for one year from the date of delivery.
*Due to the nature of wood stains, color matching can not be guaranteed.

Species and Finishes

Species: Ash

Species: Cherry

Species: Walnut

Species: Maple
